# GRADUATE OUTCOME SURVEY OF DEGREE ALUMNI STUDENTS 2020-21, 2021-22 AND 2022-23

The Department of Collegiate Education is conducting a Graduate Outcome Survey to understand what degree graduates are doing after completing their course: whether they are employed, studying further, preparing for examinations or looking for work, and how relevant their course has been. The findings will be used to review and improve the courses offered in our colleges.

The survey is an online form and takes about 4 minutes:

https://docs.google.com/forms/d/e/1FAIpQLSdYPonDoav2DMgJF_EXb_Fw3HhucO0yng_KzgtQ_Nvk723PHQ/viewform

All Principals are instructed to:

1. Reach every student admitted to the degree in your college in 2020-21, 2021-22 and 2022-23. This includes students who passed, students with subjects still pending, and students who discontinued.

2. Send the link through the college's alumni and class WhatsApp groups, by SMS or phone call to the mobile numbers in the admission records, and on the college website and notice board.

3. Nominate one faculty member (preferably the Placement Officer) as nodal officer for the survey, and share the name and mobile number with this office by 02.11.2026.

4. Ensure that each graduate fills the form personally, only once. Staff must not fill the form on behalf of students.

5. Complete the exercise – reaching every alumnus and getting the form filled – by 10.11.2026 positively, and report the number of alumni contacted and the number who filled the form, batch-wise, to this office on the same day.
